Page titles are an important aspect of search engine optimization.

Headline tags

The diagram illustrates the structure of headline tags using an example text block. The text is organized into three main sections, each highlighted with an orange border:

- Headline:** The top section, "Free Ebook: The Essential Step-by-Step Guide to Internet Marketing", is indicated by an arrow labeled "Headline".
- Sub-headline:** The middle section, "The Building Blocks for Succeeding With Marketing on the Web", is indicated by an arrow labeled "Sub-headline".
- Bold text:** The bottom section, "Whether you're just getting started with internet marketing or you just want to brush up on the basics, this ebook can serve as your essential guide to setting up and implementing a successful internet marketing strategy, step by step.", is indicated by an arrow labeled "Bold text".

Below the bold text section, there is a paragraph of text: "From establishing your initial keyword strategy to leveraging social media to promote content online all the way through to analyzing and refining your strategies, this comprehensive internet marketing ebook will guide you through every essential step you should be taking to effectively market your business on the web, whether you're a software company, a chimney sweep, a tailor, or a marketing agency, to name a few."

To the right of the text block, there is a 3D bar chart with five bars of increasing height, colored yellow, orange, red, pink, and teal from left to right.

Place keywords in your H tags

<H1>This is a heading</H1>

<H2>This is subheading A</H2>

<H2>This is subheading B</H2>

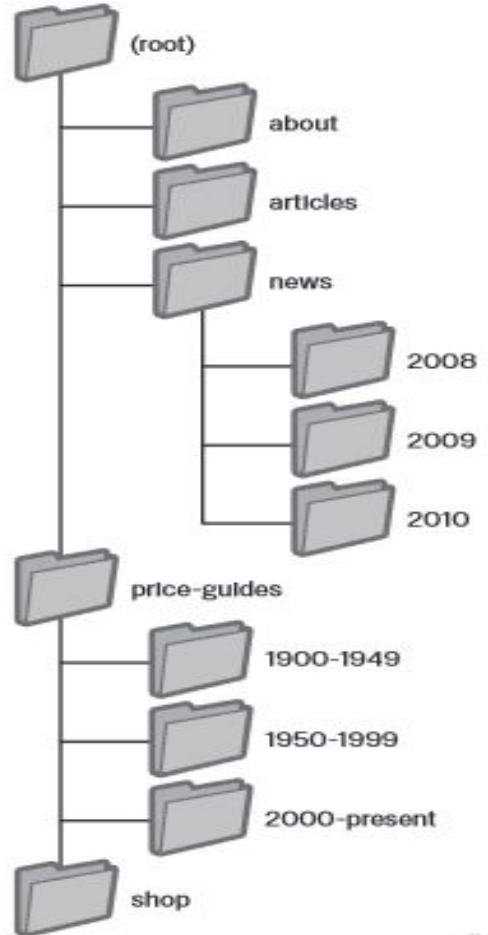

<H3>This is a lower subheading</H3>
